ALPINE ADVENTURES - NH'S LEADING SNOWMOBILE & OFF ROAD
TOUR OPERATOR ANNOUNCES NEW FALL & WINTER TOURS.

LINCOLN, NH, SEPTEMBER 20, 2004 – Coming off a very exciting & successful debut season of their “Summer Safari” off road tours (the first of their kind in the east), Alpine Adventures announces a new series of Fall Foliage Tours in partnership with Loon Mountain ski area & plans for expanded winter operations.

The “Summer Safari” tours created quite a buzz in the northeast this year, attracting the attention of TV stations such as WMUR ch.9, WNDS ch.50 & PBS. These new tours combined spectacular views and an exciting off-road ride with music and fun tour guides to create a unique experience that was an instant hit with customers. The combination of some serious off-roading and incredible scenery make these tours fun for the whole family as well as corporate groups and company outings.

The tours are run with Pinzgauers, 6-wheel-drive military vehicles. The open design and incredible off-road capability of the vehicles are a great platform for these tours. The trucks have been modified with bucket seats for comfort and increased visibility along with a state of the art sound system to create an entertaining, as well as scenic trip.

“Our foliage trips will of course focus on the amazing scenery of the area, however we will continue the extreme off roading that made our summer tours so popular,” says Randy Farwell, owner. “We will also continue our partnership with Loon Mountain, which allows us to drive partway up the mountain on our tours & offer packages that include Gondola passes and lunch at the Summit Cafe, for the ultimate fall foliage experience.” (Tours with Loon will run through Oct. 10th) “We will also be creating sort of a ‘winter safari’ tour using our trucks that will really be something unique and a lot of fun for the whole family. We’re very excited about these trips.”

The tours will be run through the end of the foliage viewing season & special rates are available for large groups. The off road winter expeditions will be run in addition to Snowmobile tours & rentals.
